# MUTEC Signs Tom Porcell to Boost Sales Team

February 2018, Berlin. MUTEC GmbH, manufacturer of professional and audiophile consumer audio equipment, has signed Tom Porcell to boost its sales team. Since the beginning of the year Tom Porcell is now supporting the sales and support departments in German-speaking territories.

Having his feet both in the mastering world and in pro audio and hifi sales for several brands Tom Porcell has racked up more than 20 years of experience in the music business. He currently freelances for HP Mastering in Germany and has just received a Gold record for his mastering work on the track "Burden Down" by electronic/dance artist Micar. On the pro audio side of the business his track record includes sales, artist relations, and product specialist work for Antelope Audio and Amphion loudspeakers. With his expertise as a mastering engineer he is intimately familiar with the application of high-end audio gear and a promising addition to the MUTEC team.

Tom Porcell, the new sales and support specialist, in his mastering suite.

"I'm very much looking forward to this new opportunity at MUTEC. As soon as I heard these products in my mastering suite I was instantly impressed. I'm thrilled to get to know MUTEC's customers who share the same passion for perfection as I do."

Tom Porcell

It is this passion for perfection combined with his musical ear and attention for detail in mastering that are an ideal match for MUTEC's aspirations and brand philosophy of merging music and technology. Hence, MUTEC's CEO Christian Peters sums up his expectations for the future as follows:

"I'm very excited about the addition of Tom Porcell to coordinate our German dealer network. Tom has extensive experience in the German pro audio and high-end consumer audio markets. As such he has successfully introduced other brands to these markets. I'm confident that his expertise and contacts will help us reach a wider range of dealers to continue establishing the MUTEC brand. Tom Porcell will also be in charge of some internal tasks such as online customer support. This further means that he will be the point person for technical support questions from our dealers. I'm very optimistic about our liaison and look forward to working with Tom."

Christian Peters, MUTEC CEO
